INTRODUCING Community Health Worker Online Training Program

GET STARTED!

ABOUT THE PROGRAM

This training is intended for community health workers also referred to as CHWs and other individuals who assist clients in the prevention, management and self-management of chronic conditions such as high blood pressure, prehypertension, hypertension, prediabetes, diabetes and asthma.

Value Added Training

This program complements CHW core competency training by providing community health workers with added education, skill building and access to resources for the prevention, management and improved self-management of chronic conditions.
